mixed reality software for operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; motion tracking sensors for augmented reality technology; motion tracking sensors for mixed reality technology; motion tracking sensors for virtual reality technology; near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; near eye display systems comprised of gps sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; near eye displays; network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; personal assistant software; personal digital assistants; personal electronic devices used to track fitness goals and statistics; personal fitness trackers; personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; personal video display screens; portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; remote control apparatus for wearable computer hardware and smartwatches; sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; smart glasses; smart glasses with wired and wireless audio capability; smartwatch bands; smartwatch straps; smartwatches; smart jewelry; social assistant software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; software and firmware for enabling electronic devices to share data and communicate with each other; software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; software for advertisers to communicate and interact with online communities; software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for converting natural language into machine-executable commands; software for creating and managing social media profiles and user accounts; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for generating images to be displayed in near-eye display system; software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for online charitable fundraising services and financial donation services; software for ordering and/or purchasing goods and services; software for organizing, searching for and managing events; software for planning activities with other users, making recommendations; software for processing images, graphics, audio, video, and text; software for recording, storing, transmitting,

receiving, displaying and analyzing data from wearable computer hardware; software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; software for smart phones and other computer systems to receive data from near-eye display systems; software for social and destination mapping; software for social networking; software for streaming multimedia entertainment content; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; software for use as an application programming interface (api); software for use in creating and designing virtual reality, augmented reality and mixed reality software; software for wireless content, data and information delivery; telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; virtual reality glasses; virtual reality headsets; virtual reality software; virtual reality software for interactive entertainment; virtual reality software for navigating a virtual reality environment; virtual reality software for object tracking, motion control and content visualization; virtual reality software for operating virtual reality headsets; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; wearable activity trackers; wearable computer peripherals; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; wearable digital electronic devices, namely, glasses, goggles, and headsets; wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; wireless computer peripherals; light emitting diode (led) signs; neon signs; downloadable multimedia files authenticated by non-fungible token (NFT); downloadable music files authenticated by non-fungible token (NFT); downloadable image files authenticated by non-fungible token (NFT); downloadable video files authenticated by non-fungible token (NFT); downloadable text files authenticated by non-fungible token (NFT); downloadable audio files authenticated by non-fungible token (NFT); image, music, audio, video and multimedia files authenticated by non-fungible tokens (nfts); digital images, audio, video and multimedia files; computer graphics; software for creating nfts; software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (nfts), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (nfts), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (nfts), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in order to enable virtual reality experiences;

wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; audio and visual headsets for use in playing video games; gaming headsets adapted for use in playing video games.

development of hardware for use in connection with electronic and interactive multimedia games; providing non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; hosting of virtual reality and augmented reality content on the internet; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and

debit card and electronic check transactions using single sign-on and software technology; providing non-downloadable software for providing authentication of parties to a financial transaction; providing an application programming interface (api) to allow users to perform electronic business transactions via the internet; providing non-downloadable software for processing electronic payments; platform as a service (paas) services featuring computer software to allow users to perform business and e-commerce transactions; providing non-downloadable software for providing electronic maps; application service provider (asp) featuring software for providing electronic maps; providing non-downloadable computer software for searching, determining, and sharing locations; providing non-downloadable software for providing a virtual marketplace; providing non-downloadable software for ordering and/or purchasing goods and services; application service provider (asp) featuring software to enable or facilitate ordering and/or purchasing goods and services; providing non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application service provider (asp) featuring software to enable or facilitate interaction and communication between humans and ai (artificial intelligence) platforms; design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; providing non-downloadable personal assistant software; providing non-downloadable social assistant software; providing non-downloadable software for use in facilitating voice over internet protocol (voip) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; application service provider (asp) services featuring software to enable or facilitate voice over internet protocol (voip) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; hosting a website featuring information in the fields of technology and software development via the internet and communication networks; design and development of virtual reality, augmented reality and mixed reality hardware and software; design and development of video game hardware and software; computer game, electronic game and video game development services; software development; providing non-downloadable software development tools; providing non-downloadable gaming software development tools; providing non-downloadable blockchain gaming software; providing non-downloadable software for game development; providing non-downloadable software for creating nfts; data encryption services; providing non-downloadable game software; providing non-downloadable virtual reality software; providing non-downloadable software for voting; providing non-downloadable software for arranging and conducting auctions; development of interactive multimedia software; maintenance and repair of computer software; computer services, namely, cloud hosting provider services; cloud computing services; providing non-downloadable cloud computing software for use in electronic storage of data; providing non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing online non-downloadable software featuring technology enabling users to upload and download electronic files; providing non-downloadable file sharing software; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; data encryption services; providing non-downloadable software and applications for customer relationship management (crm); application service provider (asp) featuring software for customer relationship management (crm); computer services, in particular, application service provider featuring application programming interface (api) software for customer relationship management (crm); providing non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; providing non-downloadable software for online charitable fundraising services and donation services; scientific and technological services and research and design relating thereto; industrial analysis and research services; computer hardware and software design, development, installation and maintenance; research services and consulting in the field of information and telecommunications technology; design of telecommunications apparatus and equipment; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; providing online software platform featuring technology that enables online users to make payments and transfer funds; providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications;

computer services, namely, application services provider featuring application programming interface (api) software to allow users to perform e-commerce transactions via the internet and communications networks; software as a services (saas) services featuring software for facilitating e-commerce transactions via the internet and communications networks; application service provider featuring an application programming interface (api) software to allow users to perform e-commerce transactions via the internet and communications networks; providing non-downloadable software for converting natural language into machine-executable commands; providing non-downloadable artificial intelligence software for facilitating machine learning software; application service provider (asp) featuring software to enable or facilitate machine learning software; providing non-downloadable software for machine learning; providing non-downloadable software tools for software development; providing non-downloadable software for building user interfaces; application service provider (asp) featuring software to enable or facilitate user interface building software; electronic data storage; electronic storage of photographs; interactive hosting services which allow the users to publish and share their own content and images online; providing non-downloadable software for database management; computer network services; providing non-downloadable software for opinion polling; providing non-downloadable software allowing users to post questions with answer options; platform as a service (paas) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; providing non-downloadable software featuring technology that allows users to manage their business networking accounts; providing non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (paas) featuring computer software platforms for personal assistant software; platform as a service (paas) featuring computer software platforms for home automation and home device integration software; platform as a service (paas) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; software as a service (saas) featuring computer software for personal information management; providing non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software as a service (saas) featuring computer software for use to connect and control internet of things (iot) electronic devices; software as a service (saas) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (iot) electronic devices; software as a service (saas) featuring computer software for use as an application programming interface (api); design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; application service provider (asp), namely, hosting computer software applications through the internet of others; consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; software as a service (saas) services, namely, hosting software for use by others for use in providing an online database featuring a wide range of general interest information via the internet; providing non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; computer, mobile computer, and mobile communication device hardware and software consultation and design; providing non-downloadable computer software that enables users to access and download computer software; providing non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; application service provider (asp) featuring application programming interface (api) software for the streaming, storage, and sharing of video games, content, data and information; computer software development in the field of mobile applications; information technology (IT) consulting services; application service provider (asp) services, namely, hosting computer software applications of others; application service provider (asp) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider (asp) services, namely, providing, hosting, managing, developing, and maintaining

applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; application service provider (asp) services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; application service provider (asp) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; application service provider services featuring application programming interface (api) software to allow users to perform electronic business transactions via a global computer network; application service provider (asp) featuring software to enable or facilitate purchasing goods and services; software as a service (saas) services; platform as a service (paas) services; providing temporary use of on-line non-downloadable cloud computing software; providing distributed ledger technology; providing temporary use of on-line non-downloadable distributed ledger software; providing temporary use of on-line non-downloadable cryptography software; providing temporary use of on-line non-downloadable software for use with cryptocurrency; providing temporary use of on-line non-downloadable software for use with digital currency; providing temporary use of on-line non-downloadable software for use with virtual currency; providing temporary use of on-line non-downloadable software for cryptocurrency mining; providing temporary use of on-line non-downloadable software for cryptocurrency farming; providing temporary use of on-line non-downloadable software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of on-line non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of on-line non-downloadable software for implementing, executing, and recording financial transactions, providing temporary use of on-line non-downloadable software for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing temporary use of on-line non-downloadable software for managing and verifying transactions on a blockchain; providing temporary use of on-line non-downloadable software for processing electronic payments and for transferring funds to and from others; providing electronic financial platform software; providing software for use as an application programming interface (api) for the development, testing, and integration of blockchain software applications; providing temporary use of on-line non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing temporary use of on-line non-downloadable software for use in financial trading; providing temporary use of on-line non-downloadable software for use in financial exchange; providing temporary use of on-line non-downloadable software for use in accessing financial information and market data and trends; providing temporary use of on-line non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; providing temporary use of non-downloadable software for use with digital currency; providing temporary use of non-downloadable software for use with cryptocurrency; providing temporary use of on-line non-downloadable software for use with digital currency wallet and storage services; providing non-downloadable software for use as a cryptocurrency wallet; providing non-downloadable software for use as an electronic wallet; providing non-downloadable software for use as a digital wallet; providing temporary use of on-line non-downloadable software for creating and managing electronic wallets; electronic data storage services; providing temporary use of on-line non-downloadable software for electronic funds transfer; providing temporary use of on-line non-downloadable software for currency conversion; providing temporary use of on-line non-downloadable software for the collection and distribution of data; providing temporary use of on-line non-downloadable software for payment and exchange transactions; providing temporary use of on-line non-downloadable software for connecting computers to local databases and global computer networks; providing temporary use of on-line non-downloadable software for creating searchable databases of information and data; providing temporary use of on-line non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and

utility token transactions; providing temporary use of on-line non-downloadable software for creating, executing, and managing smart contracts; development and implementation of smart contracts; providing temporary use of on-line non-downloadable software for managing payment and exchange transactions; providing temporary use of on-line non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing temporary use of on-line non-downloadable software for use in enabling the electronic transfer of funds to and from others; providing temporary use of on-line non-downloadable software for decentralized finance; providing temporary use of on-line non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing temporary use of on-line non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing temporary use of on-line non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing temporary use of on-line non-downloadable software for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; providing temporary use of non-downloadable distributed ledger platform software for use in processing financial transactions; providing temporary use of on-line non-downloadable software for maintaining ledgers for financial transactions; providing temporary use of on-line non-downloadable software for electronic funds transfer and currency conversion; providing temporary use of on-line non-downloadable software for use in web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; providing software for non-downloadable electronic publications; providing temporary use of on-line non-downloadable software for digital images, audio, video and multimedia files; providing non-downloadable software for computer graphics; platform as a service (paas) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software as a service (saas) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (paas) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (saas) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; data mining; providing temporary use of on-line non-downloadable software for use with blockchain technology; software as a service (saas) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (paas) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (paas) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (saas) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; providing temporary use of on-line non-downloadable blockchain software; design, development and implementation of audit and security software for blockchain-based platforms; providing temporary use of on-line non-downloadable software for use in

facilitating secure transactions; providing temporary use of on-line non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; providing temporary use of on-line non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; platform as a service (paas) featuring computer software platforms for computer system and application development, deployment, and management; software as a service (saas) featuring computer software platforms for computer system and application development, deployment, and management; providing non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; providing temporary use of on-line non-downloadable communications software; providing online non-downloadable software for use in the exchange of virtual items; providing a digital exchange that enables users to trade cryptocurrency and digital currency, financial assets, and commodities; providing non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets; application service provider (asp); application service provider (asp) featuring application programming interface (api) software which facilitates online services for social networking, developing software applications; application service provider (asp) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; application service provider (asp) featuring software for mapping services; application service provider (asp) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider (asp) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider (asp) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; application service provider (asp) featuring software to enable or facilitate social and destination mapping; application service provider (asp) featuring software to enable or facilitate interaction and communication between humans and ai (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application service provider (asp) services; application service provider (asp) services featuring software for controlling, integrating, operating, connecting, and managing voice -controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; application service provider (asp), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; application service provider (asp), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; application service provider (asp), namely, remote hosting of computer applications of others; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; computer technology consultancy; computer programming; consultancy in the design and development of computer hardware; computer software consultancy; technical consultancy relating to computer hardware design and application and use of computer software; providing online support services for computer program users, namely, providing information, online links and electronic resources related to sports, health, and fitness;

computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; computer services, namely, curating online user-defined content and advertisements and creating social media feeds; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; computer services, namely, providing information in the fields of technology and software development via the internet; computer software development; creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; design and development of augmented reality hardware and software; design and development of computer hardware and computer software; design and development of interactive multimedia software; design and development of augmented reality hardware and software; design and development of mixed reality hardware and software; design and development of virtual reality hardware and software; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; hosting of digital content on the internet; mapping services; mobile computer and mobile communications device hardware and software consultation and design; mobile computer and mobile communications device software design for others; providing non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; providing non-downloadable computer software for facilitating interaction and communication between humans and ai (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; providing non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing non-downloadable computer software for social and destination mapping; providing non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; providing non-downloadable software for ordering and/or purchasing goods and services; providing non-downloadable software for processing electronic transactions; providing non-downloadable software for providing a virtual marketplace; providing non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; providing non-downloadable software for streaming multimedia entertainment content; providing non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing non-downloadable software for processing images, graphics, audio, video, and text; providing non-downloadable software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing non-downloadable cloud computing software for use in electronic storage of data; providing non-downloadable cloud computing software for virtual reality, mixed reality and augmented reality applications and environments; providing non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; platform as a service (paas) featuring computer software platforms for use in purchasing and disseminating advertising; platform as a service (paas) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; platform as a service (paas) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (paas)

featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; platform as a service (paas) services featuring computer software to allow users to perform electronic business and e-commerce transaction; providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing internet search engines; providing temporary use of on-line non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities, to engage in social networking, and to manage their social networking accounts; providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; providing non-downloadable personal assistant software; providing non-downloadable social assistant software; providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; providing non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; providing non-downloadable software for online charitable fundraising services and financial donation services; providing non-downloadable software for mapping services; providing online non-downloadable computer software and hosting online facilities to enable users to access and download computer software; providing non-downloadable software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; providing non-downloadable software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing non-downloadable software for social and destination mapping; providing non-downloadable software for finding content and content publishers, and for subscribing to content; providing non-downloadable software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; providing non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; providing non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; providing non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing non-downloadable software applications for providing location-based weather information; providing non-downloadable software applications for providing, linking to, or streaming news or current events information;
