sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for implementing and recording financial transactions; software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; software for use in financial trading; software for use in financial exchange; software for accessing financial information and market data and trends; software for settling financial transactions; software for providing authentication of parties to a financial transaction; software for maintaining ledgers for financial transactions; software for the management of cryptographic security of electronic transmissions across computer networks; software for encrypting and enabling secure transmission of digital information over the Internet; software for allowing users to calculate parameters related to financial transactions; distributed ledger software for use in processing financial transactions; software for electronic funds transfer; software for currency conversion; software for the collection and distribution of data; software for payment transactions; software for connecting computers to local databases and global computer networks; software for creating searchable databases of information and data; software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing smart contracts; software for managing payment and exchange transactions; software and hardware for use as a digital currency wallet; software and hardware for use as a virtual currency wallet; software and hardware for use as a digital asset wallet; software and hardware for use as a digital token wallet; software and hardware for use as a crypto token wallet; software and hardware for use as a utility token wallet; software for creating a decentralized and open source digital currency for use in blockchain-based transactions; software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; software for creating a decentralized and open source digital token for use in blockchain-based transactions; software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; software for creating, selling and managing blockchain-based tokens or appcoins; software for use in an electronic financial platform; software for processing electronic payments and for transferring funds to and from others; software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; blockchain platform software; software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for managing crypto currency and digital currency accounts; software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use in enabling the electronic transfer of funds to and from others; software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for use in facilitating the use of a blockchain or distributed electronic ledger to execute and record financial transactions, namely, financial trades made with the use of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized

assets, digital tokens, crypto tokens and utility tokens; software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, PDA, and web-based environment; software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; software for use as an application program interface (API) software for use in computer hardware device identification; software for use in authenticating user access to computers and computer networks; software for use in facilitating secure transactions; software for use in accessing, reading, tracking, and using blockchain technology; software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; software for network identification verification, authentication and management services for security purposes; authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; encryption devices; security tokens; downloadable software for use as a security token; software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable cryptographic keys for receiving and spending cryptocurrency; software for use in enabling processing and tracking of electronic funds transfers; blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; software for social networking in the field of investments.

financial information provided by electronic means; brokerage services; virtual currency exchange; trading in foreign currency; financial services related to digital currency; financial services related to cryptocurrency; digital currency exchange services; digital currency transfer services; cryptocurrency transfer services; virtual currency services; financial services relating to digital currency wallets; financial services by means of electronic wallets; financial management of electronic wallets; online financial transactions in relation to digital currency; electronic wallet payment services in relation to digital currency; e-wallet payment services; electronic banking services via a global computer network; currency trading; payment processing services; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token trading services; financial information processing for others related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payment, exchange and transaction processing services for others; conducting cashless payment transactions; electronic funds transfer services; electronic virtual currency transfer services; electronic funds transfer; providing financial information in the nature of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token ratings; providing financial information in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token markets; provision of information relating to finance; financial services, namely, providing virtual currency services for use by members of an online community via a global computer network; issuance of tokens of value; management of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial services, namely, providing a financial exchange for the trading of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; cryptocurrency trading services; cryptocurrency exchange services; cryptocurrency payment processing; electronic wallet payment services; financial services related to electronic wallets; electronic wallet payment services in relation to virtual currency; processing electronic payments through electronic wallet services; currency management services; currency transfer services; financial services, namely, providing electronic transfer of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial consultation in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; electronic processing and tracking of electronic funds transfers; currency exchange services; investment management services; management of digital asset investment portfolios; custodial services for financial institutions and funds; provision of financial lists and trading of exchange contracts (swaps) for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; trading of financial derivatives on digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; exchanging money; clearing and reconciling financial transactions; electronic funds transfer; financial information services; electronic financial trading services; electronic financial trading, namely, trading of the field of digitized assets; electronic financial trading services, namely, management of digital assets; providing on-demand and real-time financial information about digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing financial information regarding digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payments from a website; providing information in the fields of investment and finance over computer networks and global communication networks; trading of financial instruments electronically; payment services for electronic commerce of financial instruments; electronic commerce payment services; blockchain-based payment verification services; financial consultancy services related to digital currency, virtual

currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token financial transactions.

Cl.42. Design and development of computer hardware and software; computer network configuration services; software services related to computer networks; computer programming; computerized data storage services; computer services, namely, providing information in the fields of technology and software development via the internet; computer services, namely, providing information in the fields of technology and software development via a global computer network; computer programming services; computer services, namely, data coding, data security, data encryption, data decryption, and data conversion; computer services, namely, providing technical and technological information in the field of blockchain, virtual currency, digital currency, digital assets and digitized assets; computer services, namely, application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; information technology (IT) services; providing software via computer networks (in particular the Internet), telecommunications networks and mobile data services (application service providing); application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services, namely, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; application service provider (ASP) services namely, hosting software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; Application service provider (ASP) services namely, hosting software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; application service provider services namely, providing application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Application service provider (ASP) services namely, hosting software to enable or facilitate purchasing goods and services; software as a service (SaaS) services; platform as a service (PaaS) services; providing cloud computing software; providing online non-downloadable software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; hosting software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing technical and technological consultancy in the field of distributed ledger technology (DLT); providing information on the design, development and hosting of software in the field of distributed ledger technology (DLT) via a website; design, development and hosting of software for and on the basis of distributed ledger technology (DLT); software as a service (SaaS) with software using distributed ledger technology (DLT); providing distributed ledger technology (DLT) in the nature of platforms and online non-downloadable software that utilize distributed ledger technology (DLT); providing non-downloadable distributed ledger technology (DLT) software; providing technical and technological information on distributed ledger technology (DLT); providing consultancy in the field of distributed ledger technology (DLT); design, development and hosting of software for and on the basis of distributed ledger technology (DLT); software as a service (SaaS) with software using distributed ledger technology (DLT); providing software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token assets; providing software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing software for processing electronic payments and for transferring funds to and from others; providing non-downloadable software for the collection and distribution of data; providing electronic financial platform software; providing software for use as an application

programming interface (API) for the development, testing, and integration of blockchain software applications; providing software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing software for use in financial trading; providing software for use in financial exchange; providing software for use in accessing financial information and market data and trends; providing software for settling financial transactions, for providing authentication of parties to a financial transaction, for maintaining ledgers for financial transactions; providing software for the management of cryptographic security of electronic transmissions across computer networks; providing software for use with digital currency; providing software for use with cryptocurrency; providing software for use with virtual currency; providing software for use with digital currency wallet and storage services; providing software for digital currency payment and exchange transactions; providing distributed ledger software for use in processing financial transactions; providing software for electronic funds transfer; providing software for currency conversion; providing software for the collection and distribution of data; providing software for payment transactions; providing software for connecting computers to local databases and global computer networks; providing software for creating searchable databases of information and data; providing software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing software for creating and managing smart contracts; providing software for managing payment and exchange transactions; providing software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for use in enabling the electronic transfer of funds to and from others; providing software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing software for creating a decentralized and open source digitized asset for use in blockchain-based; providing software for creating a decentralized and open source digital token for use in blockchain-based transactions; providing software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; providing software for allowing users to calculate parameters related to financial transactions; distributed ledger platform software for use in processing financial transactions; providing software for electronic funds transfer and currency conversion; providing software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; design, development, maintenance and hosting of a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; design, development and hosting of a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; design, development and hosting a website featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; design, development, maintenance and hosting of a web portal for users to access information in the field of virtual currencies, digital and blockchain assets; design, development and hosting of a web portal for users to access information in the field of virtual currencies, digital and blockchain assets; platform as a service (PaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software as a service (SaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (SaaS) featuring

computer software platforms for managing blockchain and token driven, distributed storage computer systems; design, development, maintenance and hosting of a decentralized electronic file storage system and open source cloud storage platform; computer services, namely, providing a decentralized electronic object storage platform for end-to-end encrypted and powered by blockchain and blockchain payments; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing electronic peer-to-peer data storage distributed across unused customer electronic storage resources; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; distributed, electronic storage of electronic media, namely, data, documents, files, text, photos, images, graphics, music, audio, video, and multimedia content; providing software for use as a cryptocurrency wallet; providing software for democratically managing digital exchanges for virtual items through smart contracts; data mining; providing software for use in trading, clearing, transmitting, receiving, storing, confirmation, and financial trading risk management for exchange market transactions in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; software as a service (SaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; providing software for use with blockchain technology; software as a service (SaaS) services featuring software for clearing, allocation, compliance, recording and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) services featuring software for clearing, allocation, compliance, recording and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (SaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; design, development, maintenance and hosting of blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing software for use in facilitating secure transactions; providing software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for decentralized blockchain style communication; software platforms for the tracking and support of data transactions; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software solutions for digital currency security; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring bitcoin; providing software for use in collecting, transferring, receiving, tracking, storing and transferring peer-to-peer currency; providing software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; providing software for

use in accessing, reading, tracking, and using blockchain technology; technical and technological consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token financial transactions; platform as a service (PaaS) featuring computer software platforms for computer system and application development, deployment, and management; software as a service (SaaS) featuring computer software platforms for computer system and application development, deployment, and management; providing software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing cloud-based computer network identification verification, authentication and management services for security purposes; secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; design, development and hosting of software for secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; providing authentication software for controlling access to and communications with computers and computer networks; providing software for use in the exchange of virtual items; providing software for selling, trading and managing blockchain-based tokens or appcoins; providing non-downloadable software for a digital exchange; providing technological services to supply digital exchange services and digital currency exchange services; providing a digital exchange, namely, design, development, maintenance and hosting of websites that features technology that enables the exchange of information and data related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility tokens; providing temporary use of on-line non-downloadable software for use in the exchange of virtual items through creating, selling, trading and managing blockchain-based tokens and virtual currency for use with a digital exchange; providing temporary use of on-line non-downloadable software for democratically managing digital exchanges for virtual items through smart contracts and distributed ledger technology on digital exchange proposals; design, development, maintenance and hosting of a website that features technology that enables the secure exchange of information by users; design, development, maintenance and hosting of a website for digital exchange services for virtual items; providing non-downloadable software for a digital currency exchange; computer software technical support services for software for a digital currency exchange; computer programming for electronic commerce; providing non-downloadable software featuring technology that enables the exchange of information, data and digital currency; providing software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing cloud-based network identification verification, authentication and management services for security purposes; providing software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; providing software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; electronic storage services; electronic storage of virtual currency, digital currency and cryptocurrency; providing authentication services for using blockchain-based software technology for cryptocurrency transactions; design, development, maintenance and hosting of a website for connecting sellers with buyers; design, development and hosting of a website featuring an online marketplace for selling and trading virtual goods with other users; electronic data storage services; providing temporary use of on-line non-downloadable software for use in processing and tracking of electronic funds transfers; design, development, maintenance and hosting of a website featuring financial information regarding digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payments; user authentication services using single sign-on technology for online software applications; quality control and authenticating of data via a blockchain; quality control and authenticating of information, messages and data; computer security services in the field of authenticating; quality control and authenticating (control) of data transmitted via telecommunications; providing temporary use of an on-line non-downloadable software for social networking in the field of investments; design, development and hosting of a website featuring information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law; providing user

authentication services using technology for e-commerce transactions, digital currency payment and exchange transactions, and electronic funds transfer; Blockchain as a Service (Baas).

Cl.45. Providing authentication of personal identification information (identification verification services); online social networking services; online social networking services in the field of investments; user verification services (security services); identification verification services (security services); providing legal information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law from a website; advice and consultancy, namely, regulatory compliance consultancy in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token applications; legal advice on regulatory compliance in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token applications; online social networking service for investors allowing financial trades and exchange of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; user authentication and verification services (security services) for payment transactions.
