**Trade Marks Act (Amendment) Order, 2017**

- Section 2 of the Trade Marks Act (Chapter 98), is amended –
  - a) by deleting the definition of “Minister “ and by substituting the following new definition therefor –  
“”Minister” means the Minister of energy in the Office of the Prime Minister;”;
  - b) by inserting the following new definition immediately after “infringing material” –  
“International Bureau” has the same meaning as Article 2(1) of the Madrid Protocol;  
“international trade mark (Brunei Darussalam)” means a trade mark which is entitled to protection in Brunei Darussalam under the Madrid Protocol or a trade mark prescribed by the Minister (by Rules made under section 53A) as an international trade mark (Brunei Darussalam);  
“Journal” means the Trade Marks Journal referred to in section 74;  
“Madrid Protocol” means the Protocol relating to the Madrid Agreement concerning the International Registration of Marks, adopted at Madrid on 27th June 1989, as revised or amended from time to time;
- Section 4 of the Act is amended, in subsection (1), by deleting “visually” from the first line.
- Section 73 of the Act is amended, in subsection (1) by deleting “*Gazette*” from the first line and by substituting “Journal” therefor.
- Section 74 of the Act is repealed and the following subsection is substituted therefor –

**“Power of Registrar to publish journal**

74. (1) The Registrar may publish or cause to be published a journal to be called the Trade Marks Journal in which there may be published such documents and information relating to a registered trade mark or an application for registration as the Registrar thinks fit.

(2) For the avoidance of doubt, the Journal shall be the official journal of record.

(3) A publication specified under the Journal need not be in a documentary form.”.

- Part II of the Act is amended by inserting the following new provisions immediately before “Protection of Well-Known Trade Marks” –

January 2019

Issue No. 001/2019

**“INTERNATIONAL MATTERS**

**The Madrid Protocol etc**

**Power to make provision giving effect to Madrid Protocol etc.**

**53A. (1)** The Minister may, with the approval of His Majesty the Sultan and Yang Di-Pertuan, make rules to give effect in Brunei Darussalam to the provisions of the Madrid Protocol or of any treaty, convention, arrangement or engagement relating to trade marks to which Brunei Darussalam is a party.

(2) Without prejudice to the generality of subsection (1), rules may, in particular, be made to provide for —

(a) the making of applications for international registrations by way of the Registry as office of origin;

(b) the procedures to be followed where the basic Brunei Darussalam application or registration fails or ceases to be in force;

(c) the procedures to be followed where the Registry receives from the International Bureau or any body specified in the rules a request for extension of protection to Brunei Darussalam;

(d) the effects of a successful request for extension of protection to Brunei Darussalam;

(e) the transformation of an application for an international registration, or an international registration, into a national application for registration;

(f) the communication of information to the International Bureau; and

(g) the payment of fees and amounts prescribed in respect of applications for international registrations, extensions of protection and renewals.

(3) Provision may also be made in the rules to apply in relation to an international trade mark (Brunei Darussalam) the provisions of section 22 and Part IV.”.

Cl.07. Machine tools; motors and engines (other than for land vehicles); couplings and transmissions (except motors and engines for land vehicles); agricultural implements, egg incubators; motors and engines for water vehicles, components and parts of these motors and engines, autonomous energy generators for underwater propulsion; turbines for energy production; alternators for energy production; turbines for wind turbines; motors and engines for wind turbines; robots (machines); on-board helicopter handling assistance devices; airborne wind turbines, wind turbines; underwater turbine generators; electricity production devices (blades, rotors of wind turbines).

Cl.09. Apparatus and instruments for computer-assisted design of weapons systems or ships, for the use and control of ships, navigation instruments; electric systems and circuits for power generation and distribution for marine and submarine vehicles and naval weapon systems; sound, electronic and electromagnetic apparatus and instruments for naval systems; scientific (other than for medical use), nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity; apparatus for non-medical analysis; apparatus and instruments for optronics, detection, data collection, classification, testing, recording, interpreting, signalling, simulation, reproduction, processing, transmission, visualization of sound and images; communication and telecommunication apparatus; magnetic recording media, optical or digital sound recording disks; calculators, consoles, computers, software or recorded computer programs, software packages, magnetic or computer interfaces, data media; magnetic data media; data processing devices (augmented reality devices), data processing apparatus or equipment, computer peripheral devices; electric batteries; simulation devices for naval field training; study and training simulators; electronic and computer devices for managing and controlling of torpedo launching; radar apparatus, sonars; electrical installations for the control of naval installations; cabins reproducing simulation environments, means for immersion (cabins, platforms, walkways), means for reproduction of all or part of premises with their functional, environmental, visual and dynamic aspects (cabin on motion); simulation software for the control of platforms, combat devices, navigation devices; software reproducing the movement of platforms and hardware environment; software for environment and equipment simulation used by surface vessels, submarines, nuclear reactors, naval aviation taking into account the physical phenomena relating to the environment (electromagnetic propagation, sound propagation, thermodynamics, restitution of visual and sound environments); tools (software) for modeling of equipment for controlling platform installations in the field of propulsion systems, electric stations, nuclear reactors, nuclear and civil installation safety; tools (software) for modeling navigation equipment; on-board dynamic control equipment for naval platforms; computer programs and software in the field of hydrodynamics, fluid mechanics, automated systems and optimization; devices for the automatic steering of marine crafts or vessels; dynamic positioning devices; vessel movement stabilization devices; automated systems for supervising vessel navigation; measurement or test benches in the laboratory or real life; energy converters activated by the movement of the sea, wind or water temperature; energy sensors; floating periscopes; electronic or electromechanical decoy devices (countermeasures) for defense use; computer or electronic devices (software) (equipment for data processing) for combat management and navigation control support; switches; sensors, namely devices and apparatus for capturing information; signal sensors; apparatus and instruments for encryption; computer devices (software) or electronic devices (equipment for data processing) for combat management or the planning of combat or navigation missions; air and marine navigation devices; electronic devices and software for combat management and control support.

Cl.11. Submerged modules for producing nuclear energy (installations for processing nuclear fuel and moderators); transportable nuclear power plants (installations for processing nuclear fuel and moderators); equipment for

producing nuclear or non-nuclear energy; modules for producing nuclear or non-nuclear energy.

Cl.12. Vehicles, apparatus for locomotion by land, air or water; watercraft and underwater vehicles; towed devices for watercraft and underwater vehicles; supply vessels; drones for use on water, underwater or in the air; automated seaborne recovery devices for manned and unmanned vehicles.

Cl.13. Firearms, ammunition and projectiles; explosives, fireworks; built-in combat devices for submarines generating and ensuring the use of weaponry such as missiles, torpedoes, mines; missile or torpedo launching modules; electronic sub-sets for management and control of modules for launching missiles or torpedoes or for firing ammunition; sub-sets for ammunition handling and reloading in modules; built-in combat devices for submarines; built-in combat devices for submarines managing and ensuring the use of weaponry such as missiles, torpedoes or mines; pyrotechnic devices for destruction, pyrotechnic devices for neutralization or decoy; self-powered naval aviation targets (decoys).

Cl.37. Shipbuilding; naval base construction; repair and maintenance of vessels, submarines, combat systems, drones, underwater nuclear power production modules, wind turbines, underwater generators, equipment or modules for the production of nuclear or non-nuclear energy, electricity production systems; installation and commissioning of systems for combat, drones, underwater modules for nuclear energy production, wind turbines, underwater generators, equipment or modules for the production of nuclear or non-nuclear energy, electricity production systems; work supervision of combat systems; assembly and maintenance of combat systems, systems and components mounted onto vessels or platforms; assembly and maintenance of vessels, submarines, underwater modules for producing nuclear energy, wind turbines, underwater generators, equipment or modules for the production of nuclear or non-nuclear energy, electricity production systems; installation, repair and maintenance of scientific, nautical apparatus and instruments, apparatus and instruments for conducting, distributing, transforming, accumulating, regulating and controlling electricity, underwater or non-underwater modules for producing nuclear or non-nuclear energy or transportable nuclear power plants; installation, maintenance and repair of systems carried on vessels and watercraft.

Cl.38. Telecommunications; communication by computer terminals, on any type of network and via any technical procedures and means; communication by fiber-optic networks; provision of access to databases; provision of systems for communication between calculators, whether fixed or on-board (telecommunications); broadband data transmissions via radio relay, acoustic means or via satellite; transmission of digital files; rental of access time to a database server center.

Cl.41. Education; training, training of personnel particularly as regards providing technical assistance; organization of practical personnel training on simulators and on-board systems; providing services for training and training of personnel (crew) using simulators, relating to the naval, nuclear, civil, naval aviation fields and in the energy field (training); individual and group training services, operational training for the operation and maintenance of nuclear, platform, combat and navigation installations, using simulators; organization of contests, competitions, games for education or entertainment purposes; organization and conducting of colloquiums, conferences or congresses; publishing services (including on-line electronic publishing services).

Cl.42. Engineering works, such as research and development of new products (for third parties), research in the field of augmented reality as well as design and development of new products relating thereto (for third parties); technical advice and systems expertise, technical projects studies; ship design; naval architecture; scientific and technological services as well as research, design and development services relating in particular to the naval, nuclear, naval aviation and civilian fields, as well as relating to energy; industrial analysis and research services in the fields of scientific, nautical, electric, electronic, computer apparatus as well as in the naval, nuclear, civil, naval-air, augmented reality and energy fields; evaluations, assessments and research in the fields of science and technology provided by engineers; software design, development, installation, maintenance, updating or rental; design and

development of computers; programming for computers, memory cards, electronic cards, data bases or networks; conversion of computer programs and data (other than physical conversion); conversion of documents from a physical medium to an electronic medium; creation (design) and development of software in the fields of naval architecture and engineering, simulation software, software simulating the operation of nuclear installations, vessels, combat systems and energy production installations; maintenance services in connection with the operational condition of systems for personnel practice and training in the naval, nuclear, naval aviation, civilian and energy fields; creation (design), development, updating and maintenance of software for aerodynamics, hydrodynamics and improved multidisciplinary design; computer programming and use of databases in the field of hydrodynamics; expert appraisals in the fields of on-board measurements, the laws of control and digital simulation, docking and recovery of drones; inspection of naval or underwater structures.
